

NUBLUE PLUS™

Kentucky Bluegrass

NuBlue Plus has improved seedling vigor and early establishment. Quick seedling establishment reduces early weed problems and is important for all bluegrass turf.

NuBlue Plus performs well under both high and low maintenance. This allows the versatile use of this economical variety in both blends and mixes for premium turf and lower maintenance. With today's higher maintenance costs, premium turf with lower inputs is a very desirable trait.

Key features

- Blends well with Other Varieties
- Trusted by Turf Managers
- Retains Color and Vigor well into the Fall

Close Mow Tolerant

Low Fertility

Great Cold Tolerance

Disease Resistance

**EXCELLENT
WINTER
HARDINESS**

Maintenance

Seeding Rate:	2-3lbs/M*
Mowing (Recommendation)	2-3"
Mowing (Down to)	0.500"

*M=1,000 square feet

Technical Information

Applications

NuBlue Plus Kentucky bluegrass brings enduring performance to your lawn, park, sports field or golf course at an affordable price. Its lush green color and plush growth crowds out weeds. NuBlue Plus is precisely matched to Jacklin's elite line of turfgrasses. It adapts to sports field and home lawn mowing heights, with or without irrigation. Its cold tolerance and low maintenance requirements make it an easy to manage turfgrass that will continue to perform longer in the fall.

Specifications

Seeding and establishment may be done in spring or fall, but be wary of summer or winter annuals. For better early weed control, consider an application of Mesotrione in the seeding process. Plant seeds to a depth of no more than 0.25-0.50" below the soil surface to ensure good seed to soil contact. Thatch layers will only slow or impede germination success. After spreading seed, keep seedbed moist throughout germination, with extra care during the early stages to prevent seed from drying out after initial seed imbibition. Germination should begin within 10 to 21 days and be complete within 35 days. Remember, the full turfgrass establishment process may take 6 months to a year.
