

PINNACLE III™

Perennial Ryegrass

Disease Resistant

Traffic Tolerance

Medium Green Color

A third generation Pinnacle cultivar, Pinnacle III exhibits high endophyte levels, a deep medium green color, very early spring green up, and overall disease resistance.

Adding strong traffic tolerance and some Gray Leaf Spot resistance, Pinnacle III is a great component in ryegrass blends or mixtures with other species.

Key features

- Genetic Color of 6.1 (NTEP out of 9)
- Excellent Traffic Tolerance
- High Growing Season Percent Cover
- Good Performance as an Overseed

**GREAT
TRAFFIC
TOLERANCE**

Maintenance

Seeding Rate: 8-10lbs./M* 15-20

Overseed (warm): bs./M*

Mowing (Recommendation): 1.5-2.5"

Mowing (Down to): 0.5"

*M=1,000 square feet

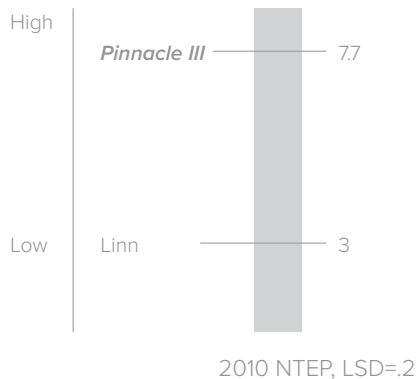

Technical Information

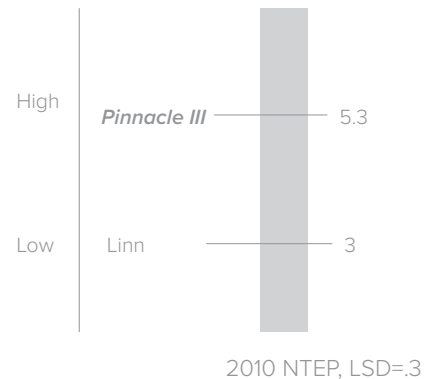

Applications

Pinnacle III continues the work of Pinnacle, adding Gray Leaf Spot Resistance into the mix. With great traffic tolerance, fast establishment, and high percent cover Pinnacle III can provide a great turf surface for many applications across climate zones. The variety is adaptable in providing qualities sought after in blends and mixtures, as well as a solution in warm season ryegrass overseeding.
